

# 2024 Pickerington Community Pool

## OPENING DAY UPDATE

Pickerington Community Pool has been preparing for another successful season. We have been working diligently to hire and train additional pool staff, increase our swim lessons being offered, and make several improvements to the pool including sandblasting, new paint and installing a new heater.

As weather has not been in our favor through the Spring starting with freezing temperatures and multiple days of rain, this has delayed our work in removing several years and layers of paint, being able to caulk all the exposed cracks in the concrete, follow precise instructions for painting the pool, starting the new heater, and getting staff trained in the water.

We have brought in multiple contractors with additional staff, worked through holidays and weekends and have committed all resources to open the pool for Memorial Day weekend.

With all the unforeseen setbacks, we have decided to delay the opening day of the pool by one week to Saturday, June 1. We will not be open Memorial Day weekend.

Safety is our highest priority, and we can't wait to see everyone this summer.

Thank you for your continued support of the Pickerington Community Pool.

### NEW OPENING DAY

**Saturday, June 1 | 12:00 – 8:00pm**
